### OeLC Summer School Registration Membership Option

In 2017, over 9000 Ontario students enrolled in over 300 sections of 90 different Summer School eLearning courses offered by OeLC member Boards.

To provide an opportunity for students from non-member Boards to enroll in OeLC Summer School eLearning course offerings, a new membership option has been introduced: **OeLC Summer School Registration Membership**

#### Boards with this membership will:

- Be set up in the OeLC's registration, communication, tracking, and reporting system, known as the SSeS (or Student Success eSolution), along with each of its schools.
- \* Be provided with one Guidance Counsellor account/login to the SSeS for each school to be used for enrolling students in OeLC Summer School eLearning courses offerings
- Be provided with online training on the use of the SSeS
- Receive support from the OeLC Coordinator prior to and during Summer School, as required

\*Once a student is enrolled in an OeLC Summer School eLearning course, the Guidance Counsellor, student, and parent(s) are automatically included in all correspondence related to registration, progress, and completion. At the end the course, the student's report card is mailed to both the student's home school, in care of their Counsellor, as well as to the student's home.

The Ontario eLearning Consortium, or OeLC, is a collective of publicly-funded Ontario School Boards with roots going all the way back to 2001. Today, OeLC membership has grown to include 22 school boards, both small and large, public and separate, urban and rural, and from all across the Province. eLearning programs supported in these Boards by the OeLC include regular day school, alternative education, adult education, and summer school.
